

## OFFICIAL SIDE EVENT- UNFCCC COP27 THE CONTRIBUTION OF URBAN REGENERATION TO CLIMATE NEUTRALITY IN CITIES

November 16th  
11.30-13.00 room 3 (10.30 CET)  
Sharm el-Sheikh Climate Change Conference  
Event organized by the SUR Lab Bocconi and cambiaMO | changing Mobility with UN-Habitat

The acceleration of climate change poses relevant challenges to cities and requires their transformation to respond to future conditions and needs. Urban regeneration, fostering compact, mixed-use, sustainable mobility, and reuse and conversion to energy-efficient buildings can trigger substantial transformations by providing effective solutions toward making cities more resilient acting in key dimensions of urban sustainable development.

The event aims to investigate sustainable urban regeneration processes and their capacity to mitigate climate change and improve urban resilience, considering social inclusion and gender equality dimensions.
